Опис нерухомості

A modern development of luxury detached villas, semi-detached houses and bungalows, designed for comfort, privacy and relaxation all year round, is being built in a prestigious location on the Costa Blanca. All the homes are distinguished by their elegant Mediterranean style and high standard of finishings. The spacious interiors combine functionality with aesthetics – an open-plan living room with an American-style dining area and kitchen seamlessly blends with the garden space, where there is a private pool and outdoor seating area.

Each property offers a minimum of three bedrooms, including a master bedroom with dressing room and en-suite bathroom. Depending on the model, the homes are laid out over one or two floors, and some feature spacious terraces or basements of up to 180 m², offering a range of design possibilities from a cinema room to a home gym. In addition, beautiful communal areas with a large swimming pool, garden, relaxation area and sunbathing area are available to residents.

This is an excellent proposition both for those looking for **a modern house for sale in Spain** and for investors planning to **buy property in Spain** for rent. The project provides a

high quality of life surrounded by nature and modern infrastructure, while being well connected to the main attractions of the region. If you dream of **villas in Spain with a swimming pool** and comfortable space, this development will certainly meet your expectations.
