Immobilienbeschreibung

Modern flats, bungalows and villas in Torrevieja - ideal for living and as an investment

In the heart of picturesque Torrevieja, between the Lagunas de La Mata and Laguna Rosa nature reserves, a unique development of flats, bungalows, semi-detached houses and detached villas is being built. This modern development is a great opportunity if you are looking for **new flats for sale in Spain**, located in a natural setting yet close to beaches and urban amenities.

Properties with 1, 2 or 3 bedrooms and bathrooms are available, and each flat has been designed with comfort and spaciousness in mind. Ground floor flats and bungalows offer private gardens, while those on the ground floor offer terraces. For those looking for something special, there are also **villas with a Spanish pool** and a large plot of land, ideal for year-round recreation.

This location is also a great option for investors. The proximity to natural areas and tourist attractions means that properties here have high potential as **investment properties in**

Spain. It is an excellent choice if you are interested in **earning rental income in Spain** or want to invest capital in a stable and growing region. The attractive **profitability of investing in Spain** makes this offer one of the most interesting on the Costa Blanca market.

Each unit comes with an allocated parking space – either above ground or in an underground garage, often with a storage room. If you're thinking of **buying a house in Alicante**, Torrevieja is one of the best places to go, and **an experienced Costa Blanca estate agent** will help you through the whole process, including tax and formal advice.
