Property Description

A project that combines modern luxury with the harmony of the surrounding nature. The complex is located in the picturesque surroundings of Guardamar, offering spectacular views of the sea and the surrounding panorama, which can be enjoyed both from inside the flats and from the spacious terraces. The development is located in the vicinity of the villages of Quesada and Rojas, allowing quick access to the full infrastructure, restaurants, shops and leisure centres.

The unique features of the flats are not only the location, but also the design created with sustainability and the highest living comfort in mind. Each ground floor Type A flat offers 80 m² of elegantly finished living space and a spacious 160 m² basement, for an impressive total of 240 m² of usable space. The basement space is more than a traditional cellar - the natural light streaming in through the patio gives it a unique character, creating adaptability as additional living or recreational space.
