Property Description

This unique development stands out not only for its modern architecture, but also for its excellent south-east orientation, which allows the interiors to be filled with natural light at all times of the day. Located in a quiet, consolidated residential area, it is the ideal place for those wishing to enjoy the Mediterranean lifestyle in the utmost comfort. From the threshold, the carefully designed interior layout, which combines functionality with aesthetics, impresses. On the main level, an open-plan space reigns supreme, where the living room, dining room and kitchen blend harmoniously into one, seamlessly transitioning into an interior patio – a space ideal for relaxing and socialising all year round.

The house occupies two levels, and its unique selling point is the upper floor. This is where you will find the relaxation area – a cosy place to unwind with a reading corner and an elegant desk. From this area, a passage leads to two spacious bedrooms, one of which offers a private terrace, and both share an impressive 10 m² bathroom, designed with attention to every detail.

The real jewel of this property, however, is the terrace-solarium, which forms a natural extension of the living area. It is the ideal place to enjoy al fresco dining, sunbathing or relaxing in the private pool.

This development is the quintessence of luxury and comfort – a place created for those who wish to live in harmony with nature, enjoying the Mediterranean climate in elegant, modern surroundings.
