Description de la propriété

La deuxième phase du projet comprendra 23 appartements avec 1, 2 et 3 chambres à coucher. Le projet est situé dans un endroit privilégié, à 1 km de la plage.

Les bâtiments sont conçus comme des structures compactes, ce qui correspond à la recherche constante d'efficacité dans la construction de la part des architectes et des concepteurs. L'emplacement à différents endroits clés de la zone résidentielle garantit que les appartements sont maintenus à la bonne température en hiver comme en été.

Cependant, la caractéristique principale des appartements est sans aucun doute leurs grandes terrasses. Grâce à leurs proportions correctes, elles constituent l'espace idéal pour vivre en plein air. En intégrant le salon à ces terrasses spacieuses, votre maison devient un espace de vie où l'intérieur rencontre l'extérieur.

Les appartements sont équipés d'une cuisine et d'une salle de bains meublées, ainsi que de l'air conditionné intégré.
