Property Description

The plot, located in the picturesque area of La Ribina, is the ideal place for those seeking peace and contact with nature, away from the hustle and bustle of the city. It has a unique semi-rural atmosphere that has delighted for years, and its charm lies in the absence of tarmac roads and urban developments. The current and former owners have chosen to preserve the gravel roads and the lack of street lighting, so the area maintains its idyllic, rural atmosphere.

The plot is fully connected to utilities – electricity and water are available, and telecommunications are via a mobile network. Despite the area's classification as an urban area by the City Council, the site retains its rural character, offering a space to live in harmony with nature.
